Appl. No. 10/091,946
Docket No. 14X200152/GFM 0214

The Examiner remarks that Claims 1-3, 10, 13-20, 23-29 (re-numbered as 1-19) are allowed for reasons set forth in Paper No. 20051005, pages 26-28.

While Applicant agrees that presented claims pertain to allowable subject matter, Applicant respectfully submits that to the extent that the Examiner's remarks suggest or state that certain limitations or combinations not found in the prior art of record relied upon are or may be present in each and every allowable claim, whether or not specific language to that effect is found in every allowable claim, the record as a whole must be considered in addition to the Examiner's remarks, and, to the extent that the record as a whole is clear and complete, it shall control the interpretation of any and all allowable claims.

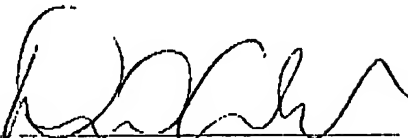

Additionally, the Examiner's statement of reasons implies that features found in the specification only, in the dependent claims only, or in some but not all independent claims only, are part of all of the allowable claims, when in fact the record clearly reflects that there are claims not so limited. For example, elements may be found in one claim but not in another. Accordingly, the other claims, and claims dependent from the other claims that do not recite the same as the one claim, are not so limited. More specifically, allowed independent Claims 1 and 18 do not recite the use of the function of multiplication factor corresponding to the square root (see Paper 20051005, page 28). Accordingly, these claims, and claims dependent from these claims that do not recite the same, are not so limited.
